Natural Acid Skin Peels

Resolve's peels freshen the skin, remove sunspots and rough patches as well as reducing freckles, irregular pigmentation, acne and fine wrinkles.

Anti Ageing Peel - This revolutionary Natural Acid Skin Peel has been scientifically developed with specific combinations of natural acids to produce the optimum results in reducing fine lines, wrinkles and fading away imperfections, leaving the skin smooth and renewed.

Anti Acne Peel - This latest development in Natural Acid Skin Peels rapidly brings acne under control and dramatically reduces the risk of future outbreaks. It counteracts all three fronts of acne by targeting each assault individually: blocked pore, comedone and inflammation.

Depigmenting Peel - It is the most effective way to achieve a brighter and even skin tone, free of darkspots and hyperpigmentation, also to eliminate skin cells rich in melanin and prevent the darkening of the new skin cells. Especially designed to target sun damage and hyperpigmentation problems.

Full Face	£65
Neck	£65
Decollate	£75
Hands	£55

- Step Three - Pay the remaining amount over the next two month in two instalments of 25%

Buy 4 or 8 get 1 FREE when you pay upfront!

Dermaplaning £60

Buff away the dead skin cells that make complexions look dull and contribute to clogged pores and spots. Dermaplaning clears the way so skin peels, facials, laser treatments, skin products and serums can get down into the skin where they need to be rather than sitting on the skin's surface. It removes peach fuzz/vellus hair and creates clear channels into the skin as well as a soft, smooth surface for makeup to glide on flawlessly. As we age, our cell turnover decreases and this affects our skin texture and tone. Dermaplaning gently buffs the top layer of dead skin cells away helps to reveal a brighter and smoother complexion.

Hyaluron Pen Treatments

No Needle Injections – Dermal Fillers, Hyaluronic Acid Serum, Mesotherapy and Fat Dissolve

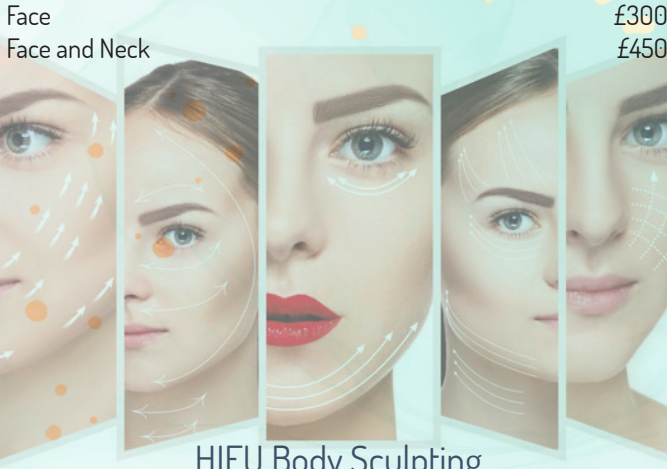

Hyaluron Pen is the newest technology of injecting Dermal Fillers and other solutions without a needle. The purpose of the dermal filler treatment is to inject Hyaluronic Acid to build volume of lips or reduce appearance of wrinkles as well as other treatments. The Pen works with spring and piston, which allow, under pressure, quick and even delivery of Serum/Hyaluronic Acid under the skin through a hole with a diameter of 0.17 mm, which is two times smaller than the needle thickness for injection. Serums are absorbed much better and faster than with the introduction of a needle. Whether you want to reduce wrinkles, reduce acne scarring, help with hair loss, fat dissolving, reduce stretch marks or augment your lips size, Hyaluron Pen is the best treatment to have. The Hyaluron Pen is the newest innovative needle free device for cosmetic treatments.

Lip Filler	£150
Nasal Lines	£150
Mesotherapy	£75 per area
Fat Dissolve	£75 per area

HIFU Skin Tightening
'Non Surgical Facelift'

HIFU stands for High-Intensity Focused Ultrasound, an advanced cosmetic technology that significantly tightens and lifts several areas of the face and neck. This is the strongest non invasive face and neck tightening and lift treatment on the market today. It also reduces signs of aging and improves the tone of the skin in a single session. HIFU face and neck lift is a long-lasting, non-surgical, non-invasive treatment that uses ultrasound energy to tighten and lift the skin.

- Benefits of HIFU face and Neck tightening and lift
- Smoothing the skin
 - Reduction of wrinkles
 - Tightening of sagging skin around the neck
 - Lifting cheeks, eyebrows & eyelids
 - A better definition of the jawline
 - Tightening of the décolletage
 - Reducing double chin
 - Lifting the excess skin on upper eyelids
 - Stimulation of collagen generation
 - Natural looking long lasting results
 - No downtime, safe and effective
 - No cuts, scarring or disruption to the skin
 - Less expensive than traditional facelifts

HIFU Body Sculpting

HIFU stands for High-Intensity Focused Ultrasound, an advanced cosmetic technology that destroys fat cells and tightens the skin. HIFU body sculpting is a non invasive treatment for fat loss, weight loss, toning and skin tightening.

The benefits of HIFU Body Sculpting

- Destroys fat cells
- Reduces cellulite
- Firms and tightens the skin
- Increases the elasticity of the skin
- Smoothens skin texture
- Less expensive than traditional liposuction
- No downtime, safe and effective results
- No cuts or disruption to the skin

1 area	£300
2 areas	£450
3 areas	£500

HIFU Vaginal Tightening £300

High Intensity Focused Ultrasound (HIFU) is an advanced treatment that utilizes ultrasound energy within a temperature-controlled system to promote vaginal tightness and rejuvenation.

It does not involve any incision, anesthesia or pain during the procedure. It's been used not only for the rejuvenation of vagina, but also for stress urinary incontinence treatment, sexual enhancement and menopausal vulvovaginal atrophy symptoms and many more issues.

- Results
- Immediate and long term results
 - Rejuvenation of vaginal tissue
 - Tightening and toning of vaginal muscles
 - Fast, virtually painless treatment
 - No downtime
 - Can last up to 2 years
